

Insert new claims, as follows:

D2
86. (NEW) The transdermal delivery system of claim 84 wherein said acrylic-based polymers include a C₄-C₁₂ alkyl acrylate.

87. (NEW) The transdermal delivery system of claim 86 wherein said acrylic-based polymers include a C₁-C₄ alkyl acrylate hardening monomer.

mm727
88. (NEW) The transdermal delivery system of claim 87 wherein said acrylic-based polymers include a functionalizing monomer.

89. (NEW) The transdermal delivery system of claim 88 wherein said acrylic-based polymers include a cross-linking agent.

90. (NEW) The transdermal delivery system of claim 84 wherein said at least one of said one or more drugs has a molecular weight of less than about 300 MW.

91. (NEW) The transdermal delivery system of claim 84 including from about 3% to 35% of said therapeutically effective amount of one or more drugs.

Sub E3
92. (NEW) A transdermal delivery system consisting essentially of a blend of:

- (a) an acrylic-based polymer; and
- (b) a therapeutically effective amount of a drug having a low molecular weight and being a liquid at or about room temperatures, wherein said system is substantially free of solvents selected from the group consisting of water and liquids having a normal boiling point
 - (i) below processing temperature and
 - (ii) equal to or greater than the normal boiling points of the low molecular weight drugs,
